

Meerkat

What is it?

Meerkat is a video app for iOS that allows users to launch a live stream using their iPhone or iPad. After a video is created, a link to the video is tweeted out on Twitter.

What is the age requirement?

Users of Meerkat must be at least 13 years of age.

Where can I learn more?

3 Things Parents Should Know

1. Videos streamed on Meerkat are live and can only be viewed while the user is recording. After the recording ends, the video is no longer visible to the public. You can also schedule videos to replay to your followers.
2. The app encourages conversation between users. Public videos are available for anyone to watch and comment on.
3. Users are encouraged to follow the [Community Guidelines](#), however there are no reporting mechanisms in place for misuse. In order to deactivate an account you need to contact hello@meerkatapp.co.
