

Vine

What is it?

Users of Vine can create short videos for social sharing that play on a loop. Users of Vine can follow and connect with other Vine users as well as search for and watch videos that users have made public.

What is the age requirement?

Users of Vine must be of at least 13 years of age.

Where can I learn more?

<https://vine.co>

3 Things Parents Should Know

1. The app's [Terms of Use](#) states that users are using the app at their own risk and that all Vine users are the owners of and responsible for the content they share. Therefore, Vine does not actively monitor or censor user content, except in limited circumstances. Visit [The Vine Rules](#) for more information.
2. The app allows the exact location of the broadcast to be visible to viewers unless otherwise indicated. You can tell if the location is being broadcasted by the compass icon. Users can [adjust privacy settings](#) here.
3. Vine allows messaging in two forms. The first form is with people you know/follow and the second is with users you do not know.
